How to use your Folding Firebox Stove with a Trangia Spirit Burner:

1. Slide Fire Sticks into these position holes. The Trangia Burner is held securely between the Fire Sticks.

2. You can also use the lower notches until the desired height is reached. The lower the burner, the higher the temperature of the flame.

Maintenance & Safety:

- Always practice fire safety.
- Always have water & other means available to extinguish fire.
- Hold box away from fire. All surfaces become extremely hot when in use. Be aware of burning. Never touch a burning box. Pre-heat does not reduce or lessen risks of hazards associated with burning.
- Fold box away from non-hardened surface. Do not leave unattended. Keep out of reach of children.

Thank you for purchasing a Folding Firebox Stove
